## Welcome to the Educational Advantage 2025 Catalogue

Our 2025 selection is filled with innovative, high-quality products designed to support nurseries, kindergartens, primary schools, childminders and parents in creating meaningful learning experiences for children of all ages.

The biggest change for us for 2025 is that all of our giant products, including our best-selling **Constructa** range and our **Giant Fishing** resources, are now manufactured from **recycled plastic**, further delivering on our commitment to sustainability. Our products cover a range of areas such as Early Years, Maths and Personal Development.

All of the images, videos and safety documents are available for our ranges. If you need anything at all, please just ask. Thank you to our existing customers for your continued support.

Look out  
for our  
Recycled  
Products

No single use plastics in  
our packaging and look for  
our FSC® certified products

Award Winning Products

Warehousing in the UK,  
Germany & USA to serve  
customers worldwide

PLAY AWARDS 2024  
WINNER

## Story Island

- Ignite children's imaginations in group collaborative play with this stunning open ended small world set.
- Children can use the 3 islands (45 x 45 cm) individually or link them together by bridges or the boat.
- Each island has a chalk friendly surface to allow children to draw on their own creations such as railways, roads, ponds, shops and destinations.
- Enough pieces to easily fill 3 islands, allowing Story Island to be split into 3 groups of children.
- Watch the cars, boats and trains travel between and across the islands as children use their creativity to create their own story and situations.
- The trees feature both deciduous and evergreen designs.
- The islands, mountains and trees are made from FSC® certified plywood.
- All the other pieces are made from FSC® certified beech wood.
- 68 piece set includes 3 islands, 3 mountains, 2 bridges, 6 trees, 8 gender neutral people, 12 house blocks, 2 cars, 1 boat, 1 train, and loads of blocks for all the vehicles for open ended building.

## Netting Alphabet Crabs

- Fun filled netting game.
- Catch the alphabet crabs with your net.
- Unique netting action develops gross motor skills.
- Ideal for sand and water play, or can be used on any flat surface.
- Develops hand eye co-ordination and letter recognition.
- Crabs measure 22 cm across.
- Net measures 75 cm long.
- Complete with a net bag for storage.
- Suitable for indoor or outdoor use.
- Perfect for phonic recognition.

## Giant Fishing a-z

- Giant fishing alphabet game suitable for indoor or outdoor use.
- Children hook the fish with their fishing rods.
- Suitable for up to 2 players.
- Improves motor skills and hand-eye co-ordination whilst learning letters.
- 26 brightly coloured, lettered fish & 2 plastic fishing rods.
- Complete with a net bag for storage.
- Fish are made from super durable HDPE approximately 23cm long.
- Fishing Rods are 72cm long.
- Can be used in water.
- Perfect for phonic recognition.

## Tricky Words Fishing

- Suitable for indoor and outdoor use and can be used in a water tray.
- All the fish are made from 100% recycled plastic.
- Children hook the fish with their fishing rods.
- The 41 fish are colour coded for each stage:
  - Phase 2 words – yellow fish
  - Phase 3 words – red fish
  - Phase 4 words – blue fish
  - Phase 5 words – green fish
- Once the fish have been caught, the children read out the word.
- Improves motor skills and hand-eye co-ordination.
- Each set includes 41 fish (9.5cm long) and 4 rods (30cm long).

Reference EA-402

Contents 41 fish & 4 rods

Age 2+

Giant Emotions Fishing

- Let’s talk! This set encourages children to have conversations around emotions.
- Children hook the discs with their fishing rods and identify the emotion they have picked!
- Giant Emotions Fishing will improve motor skills, develop hand-eye co-ordination skills and encourage collaborative play.
- Includes 3 of each expression (happy, sad, angry, upset, worried and surprised) in 3 skin tones.
- The 18 discs are made from durable HDPE and are approximately 20cm long and the fishing rods are 72cm long.

Colour Mixing Boxes

- This is a great set for both colour mixing and stacking.
- Each 27 piece set includes 3 sets of 3 different sizes boxes in 3 colours.
- The 3 colours are cyan, magenta and yellow which allow you to create loads of different colours.
- Mix 2 or 3 colours to create a myriad of colours or your own rainbow!
- There are multiple ways to stack the boxes, such as in size order or at angles to the box below.
- Looks stunning when used on a light panel.
- This set is designed to challenge children to work out the correct way to colour mix and stack the boxes.
- Large box measures 5cm, medium box measures 4.5cm and small box measures 4cm.

## Magnetic Number Blocks

- These magnetic blocks are ideal for teaching addition, subtraction, division, multiplication and number sequencing.
- Colour coded to show even numbers (blue), odd numbers (yellow) and operations (red).
- This set contains 16 number blocks (numbers 0-10 plus extra blocks for 1-5) and 5 operations (1 each of addition, subtraction, multiplication, division & equals).
- Printed on one side so you can hide answers and part of number sentences.
- The magnetic blocks easily connect together.
- Each block measures 3 x 3.5 x 3.5cm.
- Develops fine motor and numeracy skills.

## Connecting Number Tiles

- Made from 100% recycled material, these tiles are ideal for early numeracy skills.
- Children can easily connect the tiles and take them apart again.
- The tiles are colour coded to show even numbers in blue, odd numbers in yellow, and operations in red.
- Each set contains 52 number tiles with numbers on one side and a subitising pattern on the reverse side apart from zero, 22 single sided operation tiles (plus, minus, equals, greater than and less than), and 24 double sided A5 work cards.
- The 24 work cards are colour coded across 3 levels:
  - Green (level 1) – numbers up to 10
  - Yellow (level 2) – numbers up to 20
  - Red (level 3) – addition and subtraction questions to 20.
- Ideal for several children to use at the same time.
- Each tile measures 6cm and is extremely hard wearing.

## Connecting Number Rods

Our innovative connecting number rods have a number (1- 10) printed on one side and a corresponding number of dots on the reverse side. Children will love joining the rods together and they can tackle a number of different mathematical areas such as addition & subtraction and multiplication & division.

Each rod is colour coded to represent a number with the longest rod (number 10) measuring 20cm long x 3cm wide. All our rods are chunky and appeal to young Maths learners. Also available are addition and subtraction 1-20 cards to support student's learning and progression.

## Wooden Fraction & Decimal Towers

- Learn about fractions and decimals with this stunning set.
- One side shows fractions & the other the corresponding decimal.
- Slot the fraction and decimal pieces onto the poles and teach up to the number 2.
- Compare, add and subtract fractions and decimals.
- The fractions are sized so that you can accurately compare fractions and decimals by the height of the pieces.
- There are 2 bases allowing more children to play with the set at any one time, making this a perfect resource for collaborative play.
- This set includes 60 colour-coded fraction and decimal pieces (from 1 and 1.0 to 1/12 and 0.083).
- All the pieces are made from FSC® certified schima superba wood.
- Bases measure 27 x 6.5cm; poles 27cm tall; fraction and decimal pieces 3.4 x 3.4cm with height ranging from 1 to 12cm.
- Blocks rotate to show either fractions or decimals.

## Connecting Word Building Tiles

- Made from 100% recycled material, these tiles are ideal for early literacy skills.
- Children can easily connect the tiles together and take them apart again.
- The tiles are colour coded to show consonants in blue and vowels in red.
- Each tile is printed with uppercase one side and lowercase on the other side.
- Ideal for several children to use at the same time when forming their first words.
- This set of 75 tiles (6cm each) contains 5 of each vowel, and a greater number of the more commonly used letters.
- A hard wearing tile that will last for many years.

Introduction to our Systematic Phonics Lacing Beads Range

We are delighted to introduce our range of Systematic Phonics Lacing Beads, specially designed to meet the requirements of the Letters and Sounds programme used in teaching SSP.

These sets are also ideal for teaching English as a second or foreign language. The beads and cards are colour-coded to match phases 2-5 of the Letters and Sounds programme .

We have also enhanced some sets by adding the letter q and an apostrophe with a white background. A brilliant addition not taught in the programme but a very useful addition for teaching other activities.

The beads are available in 3 sizes allowing for diagraphs to be printed on one bead and used in word building. All the beads measure 29mm in height, are easy to put onto the strings and the reverse of all the beads are blank.

The beads have been carefully designed to ensure that they flow evenly when using diagraphs, therefore allowing each word to flow when blending words.

Beads can be used independently to create pseudo words to check phonic recognition.

Systematic Phonics Lacing Beads Sets Summary

| Description          | Reference | Age | Phase | Page |
|----------------------|-----------|-----|-------|------|
| CVC Set              | EA-221    | 4+  | 2     | 63   |
| CVCC/CCVC Set        | EA-222    | 4+  | 4     | 62   |
| High Frequency Words | EA-223    | 4+  | 2-5   | 64   |
| Letters & Graphemes  | EA-224    | 4+  | 3     | 65   |
| Bulk Set             | EA-225    | 4+  | 2-5   | 64   |

Systematic Phonics Lacing Beads – CVCC CCVC Set Phase 4

- Children will enjoy forming CVCC and CCVC words with this set.
- Cards are initially laid out with the yellow side facing up to show the picture of the CVCC or CCVC word.
- Pick a card and identify the missing word.
- Form the word using a string and beads, then lay the word on top of the card.
- All the words are taken from the bank of suggested words in phase 4 of Letters and Sounds.
- Some of the words on the cards include phase 3 graphemes.
- Self-checking cards with answer on reverse side.
- The beads are orange and dark purple to match phases 2 and 3.

Animal Habitats Game

- Learn about contrasting habitats and the animals that live in them with this fun game.
- Two games in one with the double sided game boards.
- On the habitat side of the board, players pick up cards, try to identify the habitat belonging to the animal and check the answer on the reverse of the card before placing it on the board.
- On the habitat bingo side of the board, players spin the spinner and pick a card to match the habitat, before placing it on their board.
- Ideal for teaching children to compare animals in familiar habitats with animals found in less familiar habitats (coast and woodland with polar and desert).
- Teachers' notes include detailed facts such as animal type, diet, life expectancy, species as well as quirky fascinating facts.
- Cut out photocopyable animals are also included covering both animals in the featured habitats and animals in different habitats for follow-on discussion activities.

## Minibeast Treasure Hunt

- Venture outdoors and discover the minibeasts living in your area.
- Groups of children look at the wooden discs and try to locate the minibeasts in their habitat.
- Children can place the discs into the bag as they discover them.
- Each set contains 4 bags and 40 discs. 32 discs are printed on one side with heat transfer photos, and 8 discs have a chalkboard surface on one side.
- Each bag is designed to hold 10 discs (18mm thick, 7mm circumference) including 8 common minibeasts and 2 chalk friendly discs.
- The chalk friendly discs allow you to draw minibeasts you discover that are not already featured in this set.
- You can also hide the discs and to ask children to collect them in the bags as a hide and seek activity.
- The cotton bags measure 18 x 22cm, and the discs are made from FSC® certified pine wood.
- When indoors, you can also turn them over and play matching pairs.

Wisdom Trikes, Scooters & Bikes

We are delighted to introduce our range of Wisdom trikes, scooters and bikes. Made from high quality materials, and competitively priced, our range covers a wide range of ages from 2+. Our range benefits from the following features:

- Unique ergonomically arched frame lowers the centre of gravity making it easier to straddle and balance.
- Heavy duty and robustly designed to withstand the busiest playgrounds.
- Flat interior hub on internal wheels for safety where footplates are located.
- Industrial strength bearings.
- Solid puncture proof rubber tyres.
- Ergonomic sculpted safety seat and solid rubber handlebar grips with anti-trap ends.
- One bolt assembly (tool provided).
- UV resistant paint to maintain a vibrant look.
- Anti-rust fittings.
- 5 Year Frame Warranty.
- 1 Year Warranty on moving parts.
- Spares service available.
- Fully tested to and compliant with EU safety standards.

Wisdom Small Trike

- This is a robust and high quality tricycle that allows children as young as 2 to enhance their motor skills.
- Wheels are made of durable polypropylene with solid rubber puncture proof tyres.
- Tyres tested and surpass 100,000 cycles wear test.
- Solid rubber safe and comfortable handlebar grips.
- The durable sculptured saddle (designed for comfort and safety) sits on an ergonomically arched frame lowering the centre of gravity for balance and making it easy to straddle and reach the ground comfortably with both feet.
- Pedals are non-slip, made from long lasting Polypropylene.
- Non-slip durable ABS foot stands on the back axle are a great play addition.

SMALL PARTS

Magnetic Match Rings

- Magnetic Match Rings is a fun way to learn about magnetism and improve eye-hand coordination.
- Each ring is magnetic, one side positive and the other negative.
- When you stack the rings on the pole, they either attract the next ring (snap together), or repel the next ring (push apart or cause it to float), creating a space in the stack.
- Comprises 10 brightly coloured magnetic rings, 40 activities on 20 pattern matching cards and 1 stand.
- Develops visual matching skills and problem solving.
- Teaches magnetic properties.

**To Play:** Select one of the 20 pattern matching cards and stack the magnetic rings in the exact same colour order as shown on the card.

## Insects X-Rays

- Discover what it means to be an entomologist – the branch of zoology that studies insects.
- With this set of X-Rays and picture cards, children can use the power of science and technology to learn the different parts of an insect, such as the head, thorax and abdomen, while seeing for themselves how even very different creatures can have very similar structures.
- Line up the cards so that you can see straight through the different insects, from the top, through the inside to the bottom.

### Create & Play Sensory Beads

- These brightly coloured beads are soft and flexible, yet durable enough for lots of touching and squeezing.
- Each shape has a recognisable geometric form: triangle, circle, oval, rectangle, square, hexagon.
- The surfaces have raised bumps, ridges and grooves that reflect the overall shape and stimulate the sense of touch.
- Each textured bead has an extra-large threading hole, making it easy to string them all together using a variety of materials.
- Use this set of sensory beads to help kids reduce stress while developing fine motor skills.
- The material is excellent for art activities.
- Press the shapes into clay to create fun, squishy patterns.
- Dip them into paint or press them into an ink pad to create colourful artwork!
- Sizes range from 3.3 to 4.8 cm.
